iQ2400

Product Description

The iQ2400 is a Class D 4-channel Amplifier. The power of 4x 300W@8ohms comes out from a compact 1U enclosure in 19" standard rack mount size.
Preset settings can be done with it's built-in DSP, optional there is a DANTE Network Option available for integration in installation infrastructures.
All Connections for Inputs and Outputs are done with cost efficient Phoenix terminals.

Technical Data

Description:	Class D 4-channel Amplifier
Configuration:	Switching Mode Power Supply
	Passive Cooled Class D Circuit
Frequency Range (+/-0.5dB):	20Hz - 20kHz
Gain:	26dB
Output Power:	4x 300W@8ohms
	4x 400W@4ohms
Connectivity:	Phoenix Terminal P7.62mm Outputs
	Phoenix Terminal P3.5mm Inputs
Dimensions (WxDxH):	483mm (19") x 270mm x 44mm (1U)
Weight:	7.5kg
